Equivalency of Standards and Cods

Wherever reference is made in the Contract to Specific standard and codes to be met by the goods and materials to be furnished, and work performed or tested, the provisions of the latest current editions or revision of the relevant standards and codes in effect shall apply, unless otherwise expressly stated in the contract. Where such standards and codes are national, or relate to a particular country or region, other authoritative standards that ensure a substantially equal or higher quality then the standard and codes specified will be accepted subject to a project manager's prior review and written consent. Differences between the standards specified and the proposed alternative standards shall be fully describe in written by the contractor and submitted to the project manager's at least 30 days prior to the date when the contractor desires the project manager's consent. In the event the project manager's determines that such proposed deviations do not ensure substantially equal or higher quality, the contractors shall comply with the standards specified in the documents.
